

Students

Now is your chance to become a defender of CyberLand and protect the virtual city from attack!

CyberLand includes a range of exciting games that will help you learn useful cyber skills whilst having fun. You can find it at:

www.cybergamesuk.com

The National Crime Agency (NCA) has teamed up with Cyber Security Challenge UK to bring you free access to the games while at home with more time on your hands.

Throughout the pandemic, the National Cyber Crime Unit (NCCU) of the NCA, along with the police, has continued working to keep internet users like you, your mates and family safe from online attacks.

If you want to know more about how to develop cyber skills and the work the NCA does to prevent cyber offending, check them out at:

www.cyberchoices.uk

Whatever you get up to online during these unusual times, make sure you stay safe and on the right side of the law.
